

CSIR-NEIST develops face masks, hand wash, liquid disinfectant, sanitized paper towel and anti-septic soap to combat COVID-19 pandemic

Besides hand sanitizers, CSIR-NEIST has developed various other products such as face masks, hand wash, liquid disinfectant, sanitized paper towel and anti-septic soap in large quantities to further aid in self-defence measures to prevent the spread of COVID-19. These materials are being produced indigenously and distributed among the employees, local community and different essential service related establishments in Jorhat.
